

Beconfident Teeth Whitening X1 Refill

120198

Beconfident X1 Refill contains a refill of the X1 Start Kit teeth whitening gel. The teeth whitening gel gives you a peroxide-free teeth whitening for that beautiful white smile without any side effects like gum pain or tooth sensitivity. The X1 refill gel works with all teeth whitening mouth trays and is perfect if you've never whitened your teeth before. It's very easy to use and each treatment only takes 15 minutes.

The whitening effect of teeth comes from a resolution of surface stains, partly through the oxidation of organic compounds deeper seated in the enamel and dentin. Beconfident's method is based on a combination of cleaning agents (Surface Active Agents) and active 32% Sodium Bicarbonate. Unlike hydrogen peroxide, which can cause unpleasant tooth sensitivity and pain in the teeth, Beconfident's is gentle and free from side effects.

Package includes peroxide free X1 teeth whitening gel with fresh melon flavour (10 ml), a shade guide and instructions.
