Beconfident Teeth Whitening Premium X3 Refill

121997

Beconfident's patented Dual-Boost X3 teeth whitening gel uses three different modes of action to brighten teeth up to 6 shades whiter in 14 days. In the first active phase, superficial discolourations are gently removed from the teeth. In the second active phase, a highly efficient whitening ingredient complex removes deeper discolouration from the teeth and visibly brightens them. Following the gel treatment, the additional mint flavoured Tooth Gloss protects teeth from new discolouration occurring and gives them fantastic shine. The result - bright white teeth for a beautiful attractive smile. The package contains 1 x 8 ml teeth whitening gel syringe which is enough for 8 days use, plus 1 x Tooth Gloss Mint (10 ml tube). Instructions for use also included.

Technical

Content	Gel: 8ml; Tooth Gloss: 10ml
