

Beconfident Teeth Whitening Night Serum

123197

Beconfident Night Serum is part of the Beconfident Teeth Whitening system, and both repairs the enamel and whitens your teeth while you sleep. This innovative serum is brushed on the teeth and helps to strengthen and fill micro cracks in the enamel while effectively removing discolouration. The result - repaired, strong and visibly whiter teeth with a shiny surface. The serum also contains Fluoride to further strengthen the enamel and prevent cavities. Flavoured with organic mint for a fresh experience. The package contains Night Serum (10 ml), application brush and instructions for use.
