Beconfident Stay Fresh Day Cream

180598

Beconfident Stay Fresh Day Cream moisturises the skin throughout the day through natural jojoba and coconut oils, which together with shea butter, green tea and vitamin A, make Stay Fresh Day Cream a moisturising and strengthening day cream that prevents surface dryness and the appearance of pimples and clots. It helps to “Recharge” a tired skin and increase the absorption of the nutritious ingredients. Used to full advantage after Revitalising Boost Serum for a hydrated, resistant skin full of youthful luster.

Stay Fresh contains 4% Betaine, which moisturises the skin, makes it stronger and more elastic and has an anti-inflammatory effect. It also contains organic jojoba and coconut oils, which naturally moisturises the skin. Stay Fresh also contains vitamin A (Retinol), which improves skin quality by stimulating collagen production.

Packed in our airless bottle, all ingredients retain their effect while the bottle is hygienic. Suitable for everyone with normal to oily skin.
