Beconfident Sonic Whitening Toothbrush Matte Black/ Rose Gold

650502

Beconfident® Sonic Whitening toothbrush does more than just clean your teeth and freshen your breath – it also creates good oral health with healthier gums and less tooth decay. The Sonic electric toothbrush vibrates at 38,000 vibrations per minute and removes plaque 62% better than manual toothbrushing. The sonic vibrations create a secondary cleaning effect, through increased water movement, that helps to remove plaque even between the teeth where the brush is not accessible. This helps to clean the entire mouth and remove all coatings for whiter teeth. You get the same clean feeling as after a dental visit.

Deep cleaning: Sonic electric toothbrush vibrates 38,000 times per minute and is clinically proven to remove plaque coatings very effectively.

Strong 'long-life' battery: Once the Sonic electric toothbrush is fully charged, a single charge is sufficient for up to 3 months of use (in normal use, 2 minutes 2 times daily). The electric toothbrush is charged using the included USB charge base, convenient to use at home or on the go. It can be charged by connecting to a PC, a power bank (battery), car or USB wall charger (phone charger).

Timer: It only takes two minutes to thoroughly clean your teeth. The timer gives a signal every 30 seconds to prompt the user to change the teeth quadrant. The toothbrush stops automatically after 2 minutes.

5 brush functions: Clean: for optimal removal of plaque, Sensitive: extra gentle position for sensitive teeth and gums, Gum Care: longer brush strokes that also massage the gums, White: alternating oscillations on the brush head remove plaque and stains and result in whiter teeth, Polish: strong cleaning for polishing and whitening effect.

Advanced Whitening effect: The superior Whitening brush head is specially developed to remove stains from the teeth and give you visibly whiter teeth. All Beconfident® toothbrush heads have DuPont® bristles with fadeaway colour as a reminder of when it's time to change toothbrush heads. When the colour fades, it is time to change – normally every three months.

Specifications: 2000 mAh Li-ion battery. IPX7 waterproof. CE, RoHs, FCC and FDA approved. A button for power on / off and mode selection. DuPont® bristles with colour reminder. Wireless charging mode via USB.

Technical

Carbamide Peroxide	0% (Zero)
