# SIMPLESMILE® Teeth Whitening X4 Expert Refill x 2

SSBDL010

Expert Refill complements the Expert Kit, for those who already have got the trays. The gel is a effective solution for teeth whitening at home – quick, easy and gentle. You receive a total of 20 ml teeth whitening gel (10 ml in each of the two Refills) for use together with trays (available in the Expert Kit).

The gel contains several active ingredients, including PAP, Sodium Bicarbonate and Coconut Sulphate that work together to effectively clean and whiten teeth. PAP is an organic ingredient that results in a high degree of oxidation. Oxidation is necessary for the whitening process because it neutralises organic bonds that cause discolouration in the teeth.

Expert Refill teeth whitening gel is 100% peroxide-free, no irritations or other unpleasant side effects in teeth or gums.
