Beconfident Hyaluronic Anti-Ageing Cream

180698

Beconfident Hyaluronic Anti-Aging Cream contains an advanced formula with protective properties that are both moisturising and prevent signs of ageing. The product contains Hylasome® EG 10, which is a non-animal hyaluronic acid that is 50 times more water-binding than regular hyaluronic acid and 5 times more moisturising after 24 hours. The cream rebuilds the skin's elasticity at the same time as it moisturises for 24 hours thanks to the high content of hyaluronic acid. Vitamins E and B5 accelerate the skin's healing and green tea extract adds antioxidants, which makes the skin feel healthy and fresh. Made in Sweden. Pharmacy approved. Registered with the Medical Products Agency. The package contains 1 x Hyaluronic Anti-Ageing Cream (50 ml) and instructions for use.

Technical

Content	50 ml
