Beconfident Teeth Whitening X1 Start Kit + X1 Refill

BCBDL011

Beconfident X1 Start Kit gives you a peroxide-free teeth whitening for that beautiful white smile without any side effects like pain in the gums or tooth sensitivity. The Start Kit contains everything you need and is perfect even if you haven't whitened your teeth before. It's very easy to use and each treatment only takes 15 minutes. You can easily mould the included mouth trays for an individual fit - just like at the dentist.

Teeth whitening is achieved from the removal of surface stains, including through the oxidation of deep seated organic compounds in the enamel and dentin. Beconfident's method is based on a combination of cleaning agents (Surface Active Agents) and active 32% Sodium Bicarbonate. Unlike hydrogen peroxide, which can cause unpleasant tooth sensitivity and pain in the gums, Beconfident's formula is gentle and free from side effects and whitens teeth up to 4 shades whiter in 10 days.

All that is needed to get your dream smile is included in the package: extra large 10 ml peroxide free whitening gel with fresh melon flavour for 10 treatments, 3pcs (one extra) mouth trays that keeps gel in place, a shade guide and clear instructions.

Beconfident X1 Refill contains a refill of the same great X1 Start Kit teeth whitening gel.
