

SIMPLESMILE® Refill

SS1201

The teeth whitening gel is based on a technology with an active whitening ingredient (32% bicarbonate) which together with the cleansing substances removes discolouration and gives a whiter teeth. 100% peroxide-free teeth whitening, without any irritation or other side effects in teeth and gums. The included mouth trays are adjusted to each teeth row and provide optimal contact between the teeth whitening gel and the teeth for best possible effect.

The treatment takes just 15 minutes and the provided gel is enough for about 10 applications. We recommend that you complete the whole treatment until the gel is empty and then repeat if necessary. Our recommendation is to complete a full treatment approximately every three months.

Simplesmile® is a safe and well-proven product that complies with all rules and laws regarding teeth whitening products. Tested and approved by dentists.
