SIMPLESMILE® Teeth Whitening X4 Expert Refill + X4 Expert Pen

SSBDL006

Expert Refill complements the Expert Kit, for those who already have got the trays. The gel is a effective solution for teeth whitening at home – quick, easy and gentle. It contains 10 ml teeth whitening gel for use together with trays (available in the Expert Kit).

The gel contains several active ingredients, including PAP, Sodium Bicarbonate and Coconut Sulphate that work together to effectively clean and whiten teeth. PAP is an organic ingredient that results in a high degree of oxidation. Oxidation is necessary for the whitening process because it neutralises organic bonds that cause discolouration in the teeth.

Expert Refill teeth whitening gel is 100% peroxide-free, no irritations or other unpleasant side effects in teeth or gums.

Expert Pen offers a smooth and easy way to maintain teeth whiteness. It's easy to bring with you, is gentle on teeth and gums and can be applied as often as you like.

Using the Touch-Up Pen, you brush the bleaching gel evenly over the tooth surface to effectively improve the result of the teeth whitening, or if you simply want to increase the whitening effect on one or more individual teeth.

The teeth whitening gel in Expert Pen contains several active ingredients, including PAP, sodium bicarbonate and coconut Sulphate that work together to effectively clean and whiten teeth.
